

Master of Business Administration (MBA)

Give Your Career Growth a Faster Pace

The Webster University MBA program is designed for experienced professionals who have reached a point in their career where strategic decision making is becoming more important. It's the perfect solution for ambitious individuals who want to shape their own destiny, upgrade their credentials, and be a strategic player in the world of business.

Many of our students are on the brink of breaking through to another level in their careers. Pursuing the MBA at Webster University shows their drive, leadership potential, personal-entrepreneurial attitude, and desire for success.

Our average MBA student is in his/her thirties, with several years of work experience. Among our alumni, we count over 30 nationalities. Since the year 2000, we have had students from over 300 different companies complete the program.

At Webster, you'll enjoy the personal attention, international perspective, and real-world approach to learning that the university is noted for worldwide. The MBA program has an emphasis on improving your "people skills" and developing an entrepreneurial way of thinking.

For maximum flexibility and convenience, our MBA program is available entirely online, in addition to our traditional classroom format. This means your progress never has to go on hold if you relocate or travel for work.

An MBA Designed Around You

The program's flexibility enables working professionals to adjust their program of study to meet the demands of their work schedules.

The courses are not sequenced in a fixed fashion. For example, students are not required to attend courses every term of the academic year. If year-end is a busy time at work, a student may take a term off and resume classes later when he/she has more time.

Students may also study at either of our Dutch locations or transfer between the program options that best fit in with their busy schedules. Options for study include:

- Week-night classes in Amsterdam and Leiden (18:00 to 22:00)
- Online classes
- Intensive one-week classes
- Trips, including company visits

The typical student takes somewhat over two years to complete the degree and over 90 percent of the students who start the program graduate.

Every student works closely with a student advisor who guides them through the program and helps keep them on track for their targeted graduation date.

The MBA program is available online, in Leiden and at the Amsterdam WTC
