

# “The Brain, Mind & Social Networks” Psychology Cluster

May 18 – June 27, 2015

## Study at Webster University Geneva this summer

- In addition to all the great possibilities for fun and cultural discovery in Geneva and around Switzerland, there’s also an opportunity to fast track your academic requirements
- Webster Geneva is offering a cluster of summer courses entitled: “The Brain, Mind & Social Networks.” This cluster is open to all Bachelor students in the Webster network
- This dynamic learning community will integrate cutting edge concepts regarding the evolution and development of the modern mind
- In just six weeks, you can take three upper level courses (9 credit hours) that can be applied directly to your Psychology Major. The courses are:
  - PSYC 3350 Cognitive Psychology
  - PSYC 3000 Neuroscience and the Brain: an Evolutionary and Developmental Perspective on the Modern Mind
  - PSYC 3000 Social Media and Interpersonal Relationships
- There are several benefits to joining the Psychology cluster:
  - Exposure to cutting edge science
  - Field trips to local labs and institutions
  - Free access to two workshops
- This summer, you can benefit greatly from the passion of dedicated faculty members who have come together to craft a special academic experience in an exciting format
- For students coming from other Webster campuses, a greatly reduced housing fee will be in place. For Webster Geneva students, CHF 2,000 will be awarded as a scholarship towards fall tuition, once the courses are successfully completed
